

Save up to **30%** off your car insurance

**10%
ENROLMENT
DISCOUNT**

Enjoy great benefits when you enrol in the **my Drive™** program:

SAFETY

The program rewards your good driving behaviour and offers tips to help you improve certain habits, such as: hard braking, rapid acceleration and distracted driving. The safer you drive, the more you can save!

SAVINGS

You get an enrolment discount for signing up and the chance to earn a personalized discount of up to 30% starting mid-term and every six months.

CONTROL

You're in charge. You can maintain or improve your personalized discount every six months by driving safely.

CONVENIENCE

Access the program, your policy documents and more through the Intact Insurance App.

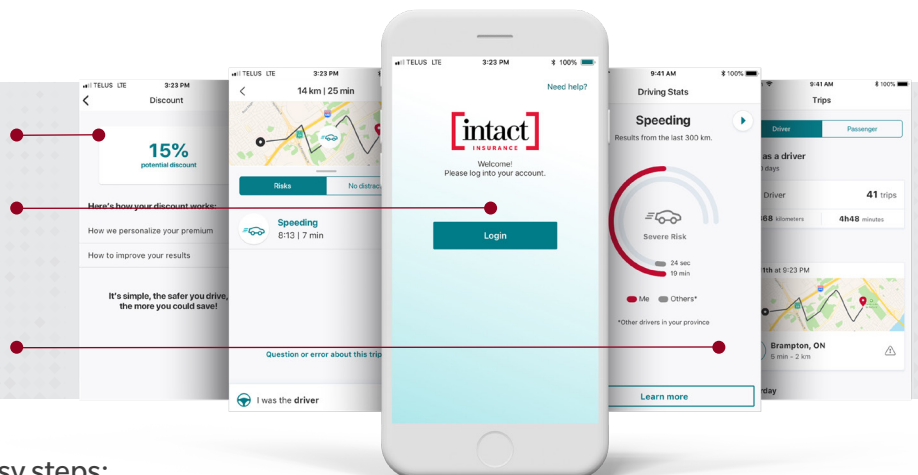

SIMPLICITY

Once the app is activated on your smartphone*, simply drive and your driving behaviour will be assessed using smart technology.

The safer you drive, the more you could save!

Access the **my Drive** program through the Intact Insurance App.

Monitor your driving habits for ways to improve and earn a personalized discount of up to 30% off your car insurance premium.

Get started with **my Drive** in a few easy steps:

SIGN UP

Simply enrol with us today and you get a 10% discount right away.

SIGN IN

You will receive a welcome email and confirmation text message with a link to download the Intact Insurance App. Once you have the app, simply follow the steps to log in for the first time**.

SAVE

Just start driving! The app will automatically record your driving behaviour, e.g.: hard braking, rapid acceleration, cornering and turns, and distracted driving. You could save up to 30% after about 6 months of driving.

*You must have a phone that meets the eligibility criteria: iPhone 5s or later, or Android with version 5.1 or later.

**You must activate within 15 days of the enrolment date or the date you receive the welcome email/text message.

Data and battery use

The app only consumes an average of 3% - 6% of a smartphone's battery life per day and uses 30 - 60 MB of data per month, which is about 1.5% - 3.0% of the average 2 GB data plan.
